Electricity - Enforcement - Tamil Nadu Generation and Distribution Corporation Limited - Plan of Action to achieve the target of Rs.200 Crores during 2011-12 - Approval.

(Secretariat Branch)

(Per.) Ch. TANGEDCO Proceedings No.255, Dated the 7th December, 2011.
Karthigai 21, Kara Varudam,
Thiruvalluvar Aandu - 2042.

Read: Chairman's note order dt.10.11.2011.

Proceedings:

The Tamil nadu Generation and Distribution Corporation Limited hereby approves the proposal of Inspector General of Police/Vigilance to achieve the target of Rs.200 Crores for the year 2011-2012 for the Enforcement Wing.

(By Order of the Chairman-cum-Managing Director)

Encl: Report accompanying the B.P.

Seema Agrawal,
IGP/Vigilance/TANGEDCO.

REPORT ACCOMPANYING THE B.P. (255), dt.07.12.2011.

1. SCOPE:

This proposal envisages the Action Plan of the Enforcement Wing to achieve the target of Rs.200 Crores for the year 2011.

2. BACKGROUND:

During the Review Meeting held on 20.07.2011 by the Principal Secretary to Government, Energy Department, it was instructed to put up the quarterly performance of the Enforcement wing to the Board. Accordingly, the quarterly performance of the Enforcement wing was placed before the Board during the Board Meeting held on

www.taneef.org

17.09.2011. The Board in its decision ordered that the target for the current year be revised to Rs.200 Crores and directed that the theft control measures should be more focused and effective and immediate action should be taken to form the squads of Ex-servicemen.

Accordingly, all the Executive Engineers/Enforcement were instructed to take all efforts to achieve the revised target prescribed by the Board and the O&M Officials were instructed to ensure proper functioning of the metering systems, so as to assess the quantum of energy drawn from the mains and ascertain the line loss and theft, if any.

Further, 25 teams of Ex-servicemen each comprising of 5 members deployed by M/s.TEXCO on contract basis, have been formed and were utilized for detection of theft of energy from 03.10.2011.

3. PAST ACHIEVEMENTS:

It is to be stated that the achievement of Enforcement wing during the last 10 years are Rs.8.2 Crores during 2000-2001, Rs.23.44 Crores during 2001-2002, Rs.12.06 Crores during 2002-2003, Rs.30.47 Crores during 2003-2004, Rs.11.72 crores during 2004-2005, Rs.10.42 Crores during 2005-2006, Rs.14.12 Crores during 2006-2007, Rs.14 Crores during 2007-2008, Rs.17.5 Crores during 2008-2009, Rs.48.11 Crores during 2009-2010 and Rs.50.7 Crores during 2010-2011.

The sudden rise in the achievement from 2009-2010 is owing to detection of misuse of tariff cases by the Enforcement wing which was hitherto under the purview of O&M Officials.

Most of the theft of energy cases detected relate to misuse of electricity i.e., using electricity for purposes other than the one for which the electricity was extended.

Only, during the year 2009-2010, the concept of target was introduced and was continued from then onwards. The achievement during the year 2009-2010 was Rs.48.11 Crores against the target of Rs.35 Crores and Rs.50.7 Crores against the target of Rs.150 Crores during the year 2010-2011. From these, it is expected that with the existing Enforcement strength, a maximum of Rs.50 to Rs.60 Crores per year alone could be achieved.

The target mentioned above were fixed with a view to ensure that the Enforcement Officials and staff discharge their duties with utmost responsibilities and without any slackness.

Some of the major activities carried out by the Enforcement wing during the past two years are discussed in Annexure-E.

As of now, the only operational problem faced is providing vehicles under contract basis. Owing to frequent hikes in the cost of fuels, spares, driver salary etc. difficulties are faced in providing contract vehicles. However, this problem may be settled by obtaining approval from the competent authority to relax the norms wherever required.

4. ROAD MAP TO ACHIEVE THE TARGET OF RS.200 CRORES, BY ENFORCEMENT WING OF TANGEDCO

4.1 FORMATION OF ADDITIONAL ENFORCEMENT SQUADS BY REARRANGING THE EXISTING ENFORCEMENT SQUADS:

Though, the scope for theft exists, the quantum of revenue that could be achieved by detecting these thefts could not be estimated exactly.

www.taneef.org

Further, 25 teams of Ex-servicemen each comprising of 5 members deployed by M/s.TEXCO on contract basis, have been formed and were utilized for detection of theft of energy from 03.10.2011.

3. PAST ACHIEVEMENTS:

It is to be stated that the achievement of Enforcement wing during the last 10 years are Rs.8.2 Crores during 2000-2001, Rs.23.44 Crores during 2001-2002, Rs.12.06 Crores during 2002-2003, Rs.30.47 Crores during 2003-2004, Rs.11.72 crores during 2004-2005, Rs.10.42 Crores during 2005-2006, Rs.14.12 Crores during 2006-2007, Rs.14 Crores during 2007-2008, Rs.17.5 Crores during 2008-2009, Rs.48.11 Crores during 2009-2010 and Rs.50.7 Crores during 2010-2011.

The sudden rise in the achievement from 2009-2010 is owing to detection of misuse of tariff cases by the Enforcement wing which was hitherto under the purview of O&M Officials.

Most of the theft of energy cases detected relate to misuse of electricity i.e., using electricity for purposes other than the one for which the electricity was extended.

Only, during the year 2009-2010, the concept of target was introduced and was continued from then onwards. The achievement during the year 2009-2010 was Rs.48.11 Crores against the target of Rs.35 Crores and Rs.50.7 Crores against the target of Rs.150 Crores during the year 2010-2011. From these, it is expected that with the existing Enforcement strength, a maximum of Rs.50 to Rs.60 Crores per year alone could be achieved.

The target mentioned above were fixed with a view to ensure that the Enforcement Officials and staff discharge their duties with utmost responsibilities and without any slackness.

Some of the major activities carried out by the Enforcement wing during the past two years are discussed in Annexure-E.

As of now, the only operational problem faced is providing vehicles under contract basis. Owing to frequent hikes in the cost of fuels, spares, driver salary etc. difficulties are faced in providing contract vehicles. However, this problem may be settled by obtaining approval from the competent authority to relax the norms wherever required.

4. ROAD MAP TO ACHIEVE THE TARGET OF RS.200 CRORES, BY ENFORCEMENT WING OF TANGEDCO

4.1 FORMATION OF ADDITIONAL ENFORCEMENT SQUADS BY REARRANGING THE EXISTING ENFORCEMENT SQUADS:

Though, the scope for theft exists, the quantum of revenue that could be achieved by detecting these thefts could not be estimated exactly.

www.taneef.org

However, to achieve the target of Rs.200 Crores prescribed by the Board, it is suggested that the Enforcement wing be strengthened by forming additional squads which would be achieved by rearranging the existing squad pattern resulting in one squad per EDC as discussed in the subsequent paragraph. This would reduce the traveling time experienced by the squads at present, owing to their jurisdiction extending upto 2/3 EDCs. As per the existing set up, around 15 squads cover 2 EDCs and squads cover 3 EDCs. As a result of which much of the duty time is lost in travel. Nominating one Enforcement squad per EDC would enable inspection of more services and detection of more thefts.

The recently formed ex-servicemen teams comprise of only 5 members in each team and their performance is appreciable. Whereas, the existing enforcement squads have 9 members which are over crowded. Most of the squad members have served more than 10 years in the enforcement wing. However, their performance is only twice that of the Ex-servicemen.

Therefore it is proposed to reorganize the existing 8 squads (1 No. Asst. Exe. Engineer + 2 Nos Assistant Engineer/Junior Engineer I Grade + 2 Nos. Technical Assistants/Junior Engineer II Grade + 2 Nos. Line Inspector/Wireman/Helper + 1 No. Driver and 1 No. Head Constable), with 40 squads at 1 Squad per Electricity Distribution Circle with Squad strength of 1 Assistant Engineer + 4 others. The detailed proposal in this regard is given at Annexure - A&B. The extra expenditure works out to Rs.2.96 Crores.

4.2 INCREASE IN NUMBER OF EX-SERVICEMEN SQUADS:

25 squads at the rate of 1 squad per Electricity Distribution Circle in 25 theft prone Electricity Distribution Circles were started since 3-10-2011 on experimental basis. Their performance during the first month had been quite encouraging. Hence, their number may be increased to 40 and the 15 Electricity Distribution Circles which do not have Ex-servicemen squads may be provided with the same. Necessary Board sanction is already available vide (Per.) FB TANGEDCO Proceedings No.7, dt.6.7.2011. A detailed proposal is given at Annexure-C. The extra expenditure in this regard would be Rs.1.98 Crs.

4.3 FORMATION OF INTELLIGENCE WING:

It is also proposed to revive the intelligence wing which was functioning during 2001 and this unit will be stationed at Chennai and will be comprising of

Sl.No.	Designation	No. of Post
1.	Deputy Superintendent of Police	1 No.
2.	Inspector of Police	2 Nos.
3.	Executive Engineer/Electrical	1 No.
4.	Assistant Executive Engineer/Electrical	1 No.
5.	Assistant Engineer/Junior Engineer I Grade/Elecl.	1 No.
6.	Junior Assistant	2 Nos.

A proposal in this regard is furnished in Annexure-D. The expenditure towards salary etc., will be Rs.0.47 Crores per annum.

The intelligence wing will be directed to collect information on thefts in industrial/ Commercial Unit.

The working sheets showing the expenditure for the above, are enclosed.

www.taneef.org

4.4 POLICY LEVEL INTERVENTION:

In the event of reorganization of existing enforcement set up for the reasons stated above, it is submitted that the scope of Enforcement squads may be enlarged by including the following duties in addition to detection of theft of energy, so as to increase the revenue/arrest the revenue leakage:

1. Merging the individual service connections existing in a premises without physical segregation.
2. Detecting the Unauthorised extension of service connection (ie., extending a service connection from one premises to another premises) and levying penalty.
3. Detecting the excess load in service connections extended under temporary supply tariff and also under industrial tariff and levying penalty for the excess load. The revenue yielded due to these activities shall be included in the achievement.

4.5 TECHNOLOGICAL INTERVENTION:

The following technical solutions to curb theft of energy are proposed:

1. Provision of check meters in all the HT service connections.
2. Shifting of existing check meters installed closer to the consumers' premises to a location where there is abundant public movement.
3. Feasibility of converting the Low Tension Over head lines into aerially bunched cables in theft prone area so as to avoid direct hook/direct tapping by the consumers.
4. Provision of Hologram sticker seals on meters and metering equipments and replacing the existing Lead seals in a phased manner.
5. Installation of Hermetically sealed meters in all the consumers premises.
6. Provision to enter the meter readings noted during the inspected of consumers' premises by the Enforcement officials on billing website (Project BEST).

4.6 FINANCIAL SUPPORT FOR ANTI-THEFT MEASURES:

It is suggested that 10% of the funds generated by Enforcement may be earmarked to up-grade anti theft measures every year.

ANNEXURE-E

Activities of the Enforcement wing during the past two years:

During the past two years, several activities in addition to the regular duties were carried out by the Enforcement wing to curtail theft of energy and are detailed below:-

Based on the informations given by the informers, all the Carbide industries in Tuticorin and Virudhunagar Electricity Distribution Circles were raided frequently and thefts in 3 units were detected. During the process, penalty of order of Rs.3.713 Crores were levied (As per TNERC Order). Out of the 3 cases, only one case was compounded by collecting Rs.18,25,000/- and in the other two cases, Police complaints have been lodged. As a result of which, out of 17 Carbide Units only two are functioning today. Similarly, the Ice factories in Tuticorin were raided and theft in one unit was detected. Provisional Assessment amounting to Rs.27,78,591/- was levied and was not remitted. Compounding charges amounting to Rs.2,95,000/- was paid by the consumer. The officials of O&M, MRT and Enforcement whose indirect collusion with the offenders were noticed, were transferred out of the Tirunelveli Region.

On 02.08.2010, the industrial units availing HT Service connections located at the industrial estates at Gummudipoondi and Hosur were raided simultaneously by pooling all the Enforcement squads and with the help of officials from General

www.taneef.org

Construction Circle and Operation wing. During the process, 219 HT Service connections including 2 Nos. of EHT Service connections were inspected and one theft involving misuse of tariff was detected in an unit at Hosur and Provisional Assessment amounting to Rs.1,17,000/- was levied.

The villages in around Thenkanikottai in Dharmapuri EDC were raided by pooling Enforcement squads of Coimbatore Division and with the assistance of O&M officials of Dharmapuri EDC. 8 Nos. of unauthorised service connections extended by the Thenkanikottai O&M staff were detected and penalty was levied upon the consumer as well as actions suggested against the concerned O&M staff.

On serval occasions, while inspecting the LT Services, Voltage zero, CT current Zero, (defective display) in 4 LT CT Service connections were noticed in the energy meters and hence, revision of billing to a tune of Rs.4.5 Lakhs was done and collected in the subsequent monthly bills.

The Rice mills in Redhills area were raided by pooling all the Enforcement squads of Chennai Enforcement division and revision of billing in 5 Nos. due to defective meters were recommended. A sum of Rs.4,56,000/- was collected in all these cases.

Whenever, lapses/connivance of the staff/officials were noticed by the enforcement wing, the relevant matters were brought to the notice of the competent authorities for necessary action.

Further, Energy Auditing on 11 KV/22 KV Feeders were carried out by all the Enforcement squads and theft of energy was detected in an LT Service connections and Rs.9.54 Lakhs was levied and collected. However it is noticed that energy auditing could not be conducted effectively owing to defective meters/non-availability of meters in HT feeders.

Brainstorming session was conducted on 14.09.2010 by inviting all the enforcement, MRT, and selected O&M officials and the measures to curb theft of energy was formulated and communicated to the O&M officials.

Review meeting with all the Superintending Engineers/EDC was conducted on 30.05.2011 and 31.05.2011 and the measures to be adhered by them to make the system fool proof were informed/communicated.

Recently, 2 Assistant Engineers/Junior Engineers I Grade were chosen from 3 Enforcement divisions and were instructed to select 10 high power consuming industries and to ascertain whether their payment of CC charges commensurate with the consumption. It is noticed that such bulk power consuming units avail wind power supplied by the WEGs through the TANGEDCO lines, some avail power from IEX. This exercise is being continued.

Further, the Vigilance Officers have been instructed to collect intelligence on theft of energy and submit the same to the Inspection General of Police/Vigilance. The service connections reported by the Vigilance Officers are being inspected and thefts have been detected.

The statistics on the performance of Enforcement wing during the past 10 years is enclosed in the Annexure-F.

From Under Secretary Services/Secretariat Branch U.O.Note No.1380/A5/A51/2010-2, dated:4.11.2011.

Proceedings:

It is observed that there is a large number of irregularities such as giving as many L.T. Service Connections in a single premises instead of effecting H.T. Connections by violating provisions of Tamil Nadu Electricity Supply Code throughout the state thereby making huge loss to the TANGEDCO. It is considered essential to conduct a detailed study regarding the violations of provisions of Tamil Nadu Electricity Supply Code.

2. It is therefore, decided to constitute a Committee to conduct a detailed study regarding the violations of provisions of Tamil Nadu Electricity Supply Code throughout the state.

3. Accordingly, it is hereby ordered that a Committee be constituted with the following members:-

(i) Director (Distribution)/TANGEDCO.

(ii) Chief Engineer/Distribution/Chennai Region (North)

(iii) Chief Engineer/Commercial

(iv) Chief Financial Controller/TANGEDCO.

(v) Superintending Engineer/Enforcement/Chennai (Convenor).

The Committee shall conduct a detailed study regarding the violation of provisions of Tamil Nadu Electricity Supply Code throughout the state to consider the remedial measures including regularizaton of the existing services in terms of Tamil Nadu Electricity Supply Code or otherwise and to have in depth analysis and suggest measures to follow the instructions given vide Accounts Branch Circular Memo.No.CFC/R/FC/R/D.No.114, dated:05.06.2010 and Chief Engineer/Commercial Circular Memo.CE/Comml/Enft/AEE/F/D4-1/2010, dated:31.12.2010.

4. The Committee shall submit the recommendations within a reasonable time directly to the Chairman-cum-Managing Director/TANGEDCO.

5) From the Chief Engineer/Information Technology (ac) U.O.Lr.No.Dir/CC/EE/CC/AEE/Egov/F.MIS/D.278/11, dated:20.12.2011.

In order to have a consolidated data base of all Court cases, the software "Legal Cases Monitoring System" has been developed and deployed and user I.D. has been created and intimated to every office to enable them to enter the data then and there. Though much time has been allowed to make (new) data entries and to update such data from time to time, the data base is not in place in a complete shape.

2. Further, the Chairman-cum-Managing Director has now directed to update the data relating to TNERC/APTEL cases and in cases where major implications involved pending before various Courts/Fora, daily.

3. Therefore, while complying the orders already issued in the references first to fourth cited, the Head of the Departments may be requested to ensure specifically the strict compliance of the following:-

"That every development in the cases pending before the TNERC and its consequential appeals filed and pending before the APTEL as well as the Supreme Court and in cases where major implications including financial implications are involved shall be updated daily, as per the direction of the Chairman-cum-Managing Director, communicated in the reference fifth cited."

4. This shall be treated as **most immediate and important**.

It is proposed to consider taking departmental proceedings under the TNEB Employees' discipline and Appeal Regulations against the officers, who would be failing to make data entries of all pending Court cases and/or updating the existing entries in the "Legal Cases Monitoring System" developed and deployed during September 2010, among other things, for the following reasons:-

i) The officers concerned have already been given much time, i.e., about one year and four months from the month of deployment of the software "Legal Cases Monitoring System"; and

www.taneef.org

ii) On behalf of the Corporations, the Chairman-cum-Managing Director, on 23.12.2011, has given a personal commitment to the Committee on Public Undertakings that the creation and updating of the data base in the "Legal Cases Monitoring System" will be completed 100% within a month.

2. Therefore, the Head of the Region/Circle/Offices concerned are directed to:-

i) instruct the subordinate officers to make new entries of all Court cases and update the entries of every development in such cases on or **before 20.01.2012**;

ii) to prepare a chart for completion of the said work in a time bound manner;

iii) to monitor the progress on day-to-day basic;

iv) to send a completion report on or before 23.01.2012.

Establishment - TANGEDCO - Redesignation of certain Executive Engineer/Civil as Superintending Engineer/Civil (Non-Independent) - Orders - Issued.

(Secretariat Branch)

(Per.) CMD TANGEDCO Proceedings No.264, - Dated the 30th December, 2011. Margazhi 14, Kara Varudam, Thiruvalluvar Aandu - 2042.

Read: From the Chief Engineer/Civil Designs/Chennai note dated 14.12.2011.

Proceedings:

It has been represented by certain Executive Engineers/Civil that they have been appointed in Board's service during 1979 as Assistant Engineer/Civil and are presently officiating as Executive Engineer/Civil and completed two years of service as regular Executive Engineer/Civil. They are getting only two promotions in their 31 years of total service and that there is no scope for them to get their next promotion and they have to retire as Executive Engineer. Therefore, they have requested to redesignate their post as Superintending Engineer/Civil (Non-Independent) in order to motivate themselves to put up their best efforts still more vigorously for the benefit of the organization.

2. After careful consideration, it is hereby ordered that 25 Executive Engineer/ Civil posts as detailed in the annexure be redesignated as Superintending Engineer/ Civil (Non-Independent) subject to the condition that they will not demand/claim any increment or any other monetary benefits, conveyance facility, supply of newspaper, provision of residential land line /SIM, Office Helper surrender allowance for 2 Nos. etc. applicable to the post of regular Superintending Engineer/Civil on being redesignated as Superintending Engineer/Civil (Non-Independent). It is also hereby ordered that no new division shall be created to accommodate them but they have to work wherever they are and do the work of Executive Engineer/Civil in their respective posts till they get promoted as Superintending Engineer/Civil in their regular vacancies according to their seniority.

1) Note approved by the CMD/TANGEDCO on 16.8.2011.
2) Per. (FB) TANGEDCO Proceedings No.117 (Techl.Br.) dt.24.11.2011.
3) Note approved by the CMD/TANGEDCO on 10.12.2011.

Proceedings:

The coal unloading facilities presently available in coal berths-1&2 at Ennore port is 12 MTPA and the capacity utilisation for the existing thermal power stations viz., Ennore TPS (450 MW), Mettur TPS (840 MW) and North Chennai TPS (630 MW) is 9.5 MTPA only. As TANGEDCO has ventured into new capacity additions including joint venture project viz., Mettur TPP-Stage-III (1x600 MW), North Chennai TPP-Stage-II (2x600 MW) and NTPC - TNEB (NTECL) - JV Project (3 x 500 MW) in the 11th and 12th five year plans, installation of shore unloaders by NTECL in coal berth-2 similar to that in coal berth-1 to meet the additional coal requirement of 15 MTPA was considered as essential. As erection of shore unloaders in coal berth-2 by NTECL is expected to be completed by Dec '2013, a contingency proposal was submitted to CMD/TANGEDCO to renew the 6 Nos. temporary travelling hoppers in coal berth-2 by CE/NCTPS in order to handle 3 MTPA of coal for the on going projects temporarily till 2 Nos. shore unloaders are erected by NTECL in coal berth-2. This proposal was approved by CMD/TANGEDCO on 16.8.2011. TANGEDCO Board has also approved renewal of temporary hoppers as per reference cited (3) above.

Based on the above, estimate have been received for renewal and renovation of 6 Nos. temporary hoppers and also operation and maintenance of the same.

www.taneef.org

After careful consideration, the CMD/TANGEDCO has accorded approval for the following proposals;

1) Administrative approval of the estimate for floating **Open Tender under Two part system** by the Chief Engineer/NCTPS for Renovation of damaged portion & operation and maintenance of 6 Nos. Temporary travelling Hoppers at Coal Berth-2 in Ennore Port for unloading 30,00,000 tonnage (i.e., 3 MTPA) of coal per annum from the geared ships @ **Rs.24.61 per MT** for the first one year and then @ **Rs.8.16 per MT** for the second year (if there is any extension of contract). The cost estimate towards repairs/renovation of 6 Nos. temporary travelling hoppers is **Rs.5,13,08,904.00/- (Rupees five crores, thirteen lakhs, eight thousand, nine hundred and four only).** The O&M charges to be incurred for handling 3MTPA of coal in the first one year @ **Rs.7.51/MT** is **Rs.2,25,30,000/- (Rupees Two crores, twenty five lakhs and thirty thousand only).** The O&M charges to be incurred for handling 3MTPA of coal in the second year @ **Rs.8.16/MT** is **Rs.2,44,80,000/- (Rupees Two crores, forty four lakhs, eighty thousand only).** Summing up the above, the total cost estimate comes around Rs.9,83,18,904/- is restricted to **Rs.9,83,10,000/- (Rupees Nine crores, eighty three lakhs and ten thousand only)** excluding taxes and duties as detailed in the **Annexure-I** and to carry out the above work on war footing in view of urgency to meet the commissioning schedule of the ongoing thermal power projects. The statutory levies are to be paid as extra.

2) To book the above expenditure under the Account Head:74.100 (Plant & Machinery) in the RE in the FY 2011-12.

3) To executive the above work, no expenditure will be incurred by TANGEDCO. Instead, the repair/renovation charges will be incurred by the contractor and the same will be paid as handling charges per tonne for the first year (3.00 MTPA) and for the second year handling charges will be paid per tonne for maintenance and operations only.
