

(ii) All HT Services those who are coming under peak hour restrictions are to be inspected frequently by forming special squads and if there any violation during peak hour action may be taken as per the instructions.

(iii) The Chief Engineers/Distribution Region are requested to send a weekly report for the above to Chief Engineer/Commercial and Chief Financial Controller/Revenue.

(iv) All additional load effected from 1.11.2008 onwards may be checked thoroughly to ensure that the consumer got the additional load as per the machineries installed genuinely. If any consumer installed alternators as load instead of motors, action may be taken to eliminate the above load. Both penal action and reduction of demand has to be enforced for the above.

The above instructions are to be followed strictly to avoid any revenue leakage and ensure the implementation of R&C measures.

The receipt of the memo. may be acknowledged to Chief Engineer/Commercial.
