Proceedings :

As per Sub-rule 2A of Rule 3 of the I.E. Rules 1956, persons employed in Generating Stations of 100 MW and above and associated Sub-stations should have been trained in a recognised institute approved by Central Electricity Authority. The institute that has to be recognised permanently by Central Electricity Authority should be a full-fledged one with all facilities by way of providing good buildings for the Institute, Hostel, Workshops etc. During the inspection of the existing Thermal Training Institute at Ennore by Central Electricity Authority in November '88, the Central Electricity Authority had pointed out that the existing facilities do not conform to the desired standards and have requested to construct suitable buildings to accommodate the Institute, Hostel, Workshop etc. Only provisional recognition has been granted by Central Electricity Authority upto March '93 on the condition that the new Institute Complex at the proposed site of the New Power Project should be ready by that time. The permanent recognition will be accorded after the new complex is completed and inspected by them. The consultants of Human Resource Development appointed by Tamil Nadu Electricity Board also recommended to provide Hostel facilities Toilets, Water Cooler etc., for the Thermal Training Institute.

After careful consideration of the above, the Tamil Nadu Electricity Board approves the proposal of construction of new buildings for Institute, Hostel and Workshops for the Thermal Training Institute at North Madras Thermal Power Project (Vallur Camp), at a total cost of Rs. 2,18,35,000.00 (Rupees Two Crores Eighteen Lakhs and Thirty Five Thousands only) as detailed below.

The above expenditure will be met in the Budget Provision of North Madras Thermal Power Project scheme during 1991—'92 and 1992—'93.

3. B.P. (Ch.) No. 112 (Technical Branch) dated 29-5-89.

In the B.P. cited under reference (2) above, instructions were issued to give time upto 31-12-89 to consumers for merger of services, where there is more than one service connection under the same tariff or under different tariff in a door number/Sub-door number and there is no physical segregation of areas served by these service connections; as contemplated in Clause 8.01 and 8.02 of Terms and Conditions of Supply.

The Chief Engineer/Distribution/Trichy Region in his D.O. letter cited under (1) and (2) in reference has stated that there are some difficulties experienced by the Superintending Engineers in this regard due to resistance from consumers and that unless notices are issued to all consumers, for merger, they cannot be penalised treating the continuance of services as misuse.

The matter has been examined. There may be similar cases in other regions also where notices for merger would not have been issued to all the consumers coming under the purview of Clause 8.01 and 8.02 of Terms and Conditions of Supply.

The Chief Engineers of Distribution are informed that the extension of time for merger of services of consumers coming under Clause 8.01 and 8.02 of Terms and Conditions of Supply is extended upto 30-6-92.

The Chief Engineers (Distribution) are requested to ensure that notices are issued immediately for merger of services into one service connection, in the appropriate tariff on or before the extended date 30-6-92.

1. Note to Board dated 12-12-91.
2. Item 33 of the extract from the minutes of the 623rd meeting of Tamil Nadu Electricity Board held on 19-12-'91.

Proceedings :

The Tamil Nadu Electricity Board approves procurement of cement outside TANCEM upto 31-3-'92 subject to the following conditions.

(i) All Chief Engineers are authorised to call for limited tenders during each quarter, from all the private cement factories located in Tamil Nadu and also from Cement Corporation of India Ltd. and approve the lowest rate if it is less than that of TANCEM.

(ii) The Chief Engineers may instruct their Superintending Engineers to procure the barest minimum requirement of cement upto 31-3-'92 directly from the companies at such approved rates by making 100% advance payment.

(iii) The Security Deposit clause may be waived in all such purchases due to emergency.

(iv) The Chief Engineers shall ensure that outside purchase is adopted only when there is shortfall in supply from TANCEM. Such purchases should be restricted to actual requirements subject to Budget provision. The Chief Engineers shall however, ensure that outside purchase upto 31-3-'92 is limited to 10% of their annual requirements of cement.

(v) A clause may be incorporated in the purchase orders for interest levy on advance payments for the period beyond 30 days from the date of receipt of advance payment.

(vi) All other Board's terms and conditions including liquidated damages clause may be incorporated in the purchase orders.

Lr. No. CFC/Rev/CB/F. 20/359 (Accounts Branch) Dated 8—1—92.

Sub : Electricity—Payment of Low Tension current consumption charges—January '92 Extension of due date for payment.

The due date for payment of Low Tension current consumption charges for the assessment made during the month of December '91 is 15—1—92. There are three consecutive holidays from 15—1—92 to 17—1—92 and therefore the last date for payment of Low Tension current consumption charges of December '91 assessment is 18—1—92 as per rules.

2. In view of the three consecutive holidays there will be heavy rush in the collection centres on 18—1—92. Therefore the Low Tension consumers should be permitted to pay their current consumption charges upto and inclusive of 20—1—92, without interest. The disconnection for non payment of Low Tension current consumption charges of December '91 assessment should start from 21—1—1992.

3. The receipt of this letter should be acknowledged to Chief Financial Controller/Revenue.

C. Ramachandran,
Chairman.

2. B.P.Ms. (Ch.) No. 231 (Adm. Br.) dt. 2—5—86
3. B.P.Ms. (FB.) No. 78, (Adm. Br.) dt. 25—9—87.
4. CE/D/Vellore Lr. No. Accts./A1/F.20/C/208/90.dt. 5—9—90

Proceedings :

1. In B.P. first cited, the Board ordered decentralisation of certain works from Central Office to the Divisions and the Executive Engineers were delegated with powers to sanction and pay the personal claims of RWE staff. In the B.P. second cited, the Board delegated powers to the Executive Engineers to pass the bills and draw cheques in respect of personal claims of RWE. In the B.P. third cited the Board has approved enhanced monetary powers of the Executive Engineers to sanction payment of rent upto Rs. 200/- (Rupees Two hundred only) per month in each case for the private buildings occupied by the Board subject to fulfilment of norms as ordered in B.P.Ms.No. 117/dt. 6—3—84.

2. Apart from the above existing orders, Chief Engineer/Distribution/Vellore has now sent a proposal to delegate the powers to the Executive Engineers of O&M to pass hand receipts for payment of Rent/Sweeping charges and Water carrier charges by Cheque through field officers.

3. The Chief Engineer/Distribution/Vellore has sent a proposal stating that at present Hand Receipts for payment of sweeping, Scavenging and Water carrier charges are prepared by the field offices based on Superintending Engineers sanction and make payment out of imprest. In the case of payment of rent, Hand Receipts are passed by Central Office and Cheques issued to the concerned either direct to the house owner or through the field officers for payment.

4. By this arrangements there is avoidable delay in payment due to transit, or want of fund in imprest etc. Such delay creates discontentment among the House owners leading to threat for vacation of buildings. Similarly the Sweepers, Water carriers also complain to Inspecting Officer about the non-payment of the charges payable to them.

5. The other Chief Engineers of Distributions have also agreed to the above proposal of the Chief Engineer, Distribution, Vellore Region.

6. After careful consideration, the proposal to delegate powers to the Executive Engineers of O&M Divisions to Pass Hand Receipts and to make payment towards Scavenging, Sweeping charges, Water carrier charges and rent etc., to the officers and offices under their control based on the sanctions accorded by the Superintending Engineers of the Circles is considered and approved, to help to speed up the payments and avoid delays.

7. The Chief Engineers of Distribution Regions and Superintending Engineers of O&M Circles are directed to adhere to the above instructions and act accordingly. They are requested to acknowledge receipt of the Boards Proceedings.

ORDER :

A number of orders have been issued on the system of preferences for purchase of stores by Government Department from Public Sector Undertakings and Small Scale Industries and medium/large scale units in Tamil Nadu. The Secretaries Committee on Public Enterprises discussed the various orders issued by Government from Industries and Finance Departments. The

Committee recommended that a comprehensive order covering all aspects may be issued in supersession of all the orders so far issued on this matter. The committee recommended that the system of Purchase preference in favour of Public Sector Undertakings for purchase of products manufactured by them should continue. The committee also recommended determination of an order of priority in the purchase from the institution.

2. The Government have examined the recommendations of the Secretaries Committees on Public Enterprises and in supersession of the orders issued in the Government orders read above issue the following orders.

3. There shall be a system of purchase preference for purchase of stores etc. by Government Departments. Purchase preference implies that a Government Department shall in making any purchase first approach the institutions/State Public Sector Undertakings in the order given in para 4 below :

4. The following institutional priority in regard to purchase of Stores, servicing and repairing will be followed :—

- (a) Jails, Borstal Schools and units of the Jail Department.
- (b) Units of Tamil Nadu Khadi & Village Industries Board and the units under the Control of the Board.
- (c) Modern Training-cum-Production workshop at Muttukadu and the Poonamallee Rural Employment Society, Chengalpat.
- (d) Tamil Nadu State Government Corporations (Public Sectors Undertakings) Production and servicing units of Government Departments and Co-operative Institutions with share capital assistance sanctioned by Tamil Nadu Government.
- (e) Products manufactured within the State and supplied through SIDCO under its "Market Assistance Scheme".

5. The scheme of purchase preference as outlined in paras 3 and 4 above implies that there can be direct approach to these institutions and no tender is required. It may be noted that this will cover only the products manufactured by them and not products merely marked by them, except in the case of SIDCO. No purchase preference will be available for joint Sector enterprises. While effecting such prices, as no tender procedure is contemplated; prices/delivery schedule/quality can be negotiated. This should be done within a reasonable time. In case any department considers that any institutions in para 4 is overcharging it may take up the issue with the concerned administrative department which shall decide the issue in consultation with Finance (BPE) Department.

6. Whenever products/services cannot be supplied by institutions listed in (a) to (e) in para 4, above the open tender system shall be followed. In adopting open tender system the price preference as below will operate.

- (a) Small Scale Units including tiny sector units registered in Tamil Nadu will continue to be given 15 (Fifteen) percent preference viz-a-vis medium/large industrial units and Small Scale Industries units registered in other States.
- (b) Medium/large scale units located within the State will continue to be given 5 (five) percent price preference viz-a-vis units located outside the State.
- (c) Co-operative Institutions of Tamil Nadu shall be entitled to a price preference of 5% for products directly manufactured by them viz-a-vis medium/large industries. As against small scale industries they shall be on the same footing.

7. In bid evaluation under the open tender system envisaged in paragraph 6, the State Public Sector Undertakings are directed to exclude sales tax but including excise duty for comparison. Price preference shall be given after exclusion of sales tax.

8. These orders shall, in addition to Government Departments also apply to purchases made by all local bodies and public sector undertaking and statutory Boards.

9. The price preference to small scale Industries, in Tamil Nadu shall be applicable to purchase of articles covered by the rate contracts entered into by the Director General of Supplies and Disposals.

10. Since the policy of purchase and price preference will not be effective in the absence of an enforcing mechanism, Government also order that the Industries Commissioner and Director of Industries & Commerce will monitor the implementation of this policy in so far as the Small Scale Industries and other industrial units are concerned including public sector undertakings. Handlooms Handicrafts Textiles & Khadi Department will monitor the policy with regard to Khadi and Handlooms.

11. Any unit aggrieved by the implementation of the policy as set out in this order will bring it to the notice of Industries, Commissioner and Director of Industries and Commerce or Handlooms Handicrafts Textile & Khadi Departments as the case may be, who will then get in touch with the Government departments concerned and redress the grievances in consultation with the Finance (BPE) Department.

12. In the case of purchase of drugs, orders already issued by Healthy Indian Medicines & Health & Family Welfare Department in G.O. Ms. No. 578 dt. 30—3—90 will continue to operate.

13. The receipt of this G. O. may be acknowledged.

G. O. Ms. No. 877, P.W., dated 7-5-91.

G. O. Ms. No. 1434, P.W., dated 27-8-91.

Order :

Section 4 of the Tamil Nadu Revision of Tariff Rates on Supply of Electrical Energy Act, 1978 (Tamil Nadu Act I of 1979) empowers the State Government to amend by notification, the provision of the Schedule to the said Act which lays down the tariff rates for consumption of electrical energy payable to Tamil Nadu Electricity Board by any a consumer.

2. Following the hike in coal prices, the Government have decided that the tariff for all categories of consumers except domestic, agriculture and huts be stepped up as mentioned in the schedule to this order.

3. The following notification will be published in an extra-ordinary issue of the Tamil Nadu Government Gazette dated 24-1-1992.

Notification

In exercise of the powers conferred by section 4 of the Tamil Nadu Revision of Tariff Rates on supply of Electrical Energy Act, 1978 (Tamil Nadu Act 1 of 1978), the Governor of Tamil Nadu hereby makes the following amendment to the Schedule to the said Act.

2. The amendment hereby made shall come into force on the 1st February, 1992.

Amendment

In the said Act, for the Schedule, the following Schedule shall be substituted, namely:—

The Schedule

(See Section 3)

Part A — High Tension Supply

High Tension Tariff I:

Registered factories, tea estates, textiles, Railway tractions, fertilisers, Salem Steel Plant, Heavy Water Plant, Caustic Soda, Calcium Carbide, Aluminium and Potassium Chlorate and all other industrial establishments.

Area	Rate per KWH (in paise)	Rate per KVA of maximum demand per month (in rupees)
(1)	(2)	(3)
Madras Metropolitan areas	150	75
Non-Metropolitan areas	140	75

Tariff concession for High Tension Industries coming under High Tension Tariff I.

(1) (a) In the case of new High Tension Industries to be set up in the areas other than the Madras Metropolitan areas, the following concessional tariffs shall be charged for the first three years from the date the consumer is given service connection under High Tension Tariff I:—

For the first year	—	60 per cent of the High Tension rates
For the second year	—	70 per cent of the High Tension rates
For the third year	—	80 per cent of the High Tension rates
For the fourth year	—	Full tariff.

The above concession shall apply to both unit rates and maximum demand charges. This concession shall not however, be applicable to an industry set up before the 3rd May 1989. The concession shall not also be applicable to a consumer, who utilises power from his own generating units or makes other arrangements for production purposes and utilises the power supplied by the Board for auxiliary purposes only;

Provided that the High Tension Industries set up in any areas (including Industrially Under-Developed Area, notified as such by the Government) before the 3rd May 1989 which are availing tariff concessions or reduction under High Tension Tariff I as on the 2nd May 1989, shall continue to avail the said tariff concession or reduction until the expiry of the period of five years from the date the consumer is given service connection under High Tension Tariff-I.

Explanation-1: For the purpose of electricity tariff concessions for new industries the term 'new industries' shall mean a new investment by any entrepreneur including by an existing industry in any area other than the Madras Metropolitan areas, provided the assets other than cash, of the existing industry are not transferred and shown as assets of the new industry.

Explanation-2: This tariff concession is applicable for a new industrial undertaking and will not be available for any expansion of the industry within the city, township, municipalities or Panchayat Union limits in which the main industry is functioning;

Provided that in the area comprising the satellite town of Maraimalai Nagar New Town developed by the Madras Metropolitan Development Authority, a consumer will be eligible for the concession once irrespective of whether he has availed of it outside Maraimalai Nagar earlier or not irrespective of whether the industry would be considered a new investment, under Explanation-1 above.

Explanation-3: A Low Tension Industry converted into a High Tension Industry is not eligible for the concession.

(b) New Industry to be set up in the areas other than the Madras Metropolitan areas which will work night shift only and existing industry, which is introducing night shift only between 9-30 P.M. of a day and 5-30 A.M. of the next day, shall be given a further concession of forty per cent of the appropriate rate for energy consumed during night shift only for a period of seven months from July to January during the period of five years. This concession shall apply to energy rate arrived at after giving the concession referred to in sub-item (a) for new industries;

Provided that in respect of those having one day shift and one night shift, the night shift concession shall stand reduced from forty per cent to twenty per cent.

Explanation: For the purpose of this clause "Existing industry" means an industry which has not completed five years from the date the consumer is given service connection and which is still eligible to the concessional tariff rate.

(c) New Industries in and around Mettur Township which avail of power only during the irrigation season from the 15th July to the 15th January shall be given a tariff reduction of twenty-five per cent. This concession shall be in addition to the other concessions applicable to the new industries mentioned in sub-items (a) and (b) above. If such industries take power during non irrigation season this concession shall not be applicable.

(d) (i) In all cases of High Tension Supply under High Tension Tariff-I the connected load under lighting and other non-industrial purposes including appliances but not for resale, must not exceed the prescribed limit as detailed in item (iii) and (iv) below. If any excess under lighting and non-industrial load cannot be segregated or brought within the prescribed limit then the whole consumption in the service shall be charged under High Tension Tariff-VII.

(ii) The new industries to be set up in the Madras Metropolitan areas shall not be eligible for any tariff concessions.

(iii) In all contracts for power supply at High Tension Tariff-I the connected load under lighting and other non-industrial purposes including appliances but not for resale must not exceed the following prescribed limits :—

For approved demand upto 1000 KVA	...	15 per cent
1000 KVA to 2500 KVA	...	150 KVA or 10 per cent whichever is higher
2501 KVA to 5000 KVA	...	250 KVA or 8 per cent whichever is higher
Above 5000 KVA	...	400 KVA or 5 per cent subject to maximum limit of 1000 KVA.

A separate meter shall be installed for this purpose. If the load is within the prescribed limit, the consumption in the service shall be charged at High Tension Tariff-I. Any excess load for lighting and non-industrial purposes above the prescribed limit shall be charged under Low Tension Tariff-IX. The consumer shall utilise the energy for Lighting and non-industrial purposes solely for bonafide purposes of the factory and its industrial activities. The Chief Engineer shall be the final authority in deciding the bonafide nature of these purposes. In the case of supply under High Tension Tariff-I the usage of electricity for bonafide purposes of lighting, heating and power loads in the residential quarters within the factory or estate premises shall be metered separately by the consumer, taking High Tension Supply and paid for to the Board at Low Tension Tariff-I. The Units so metered shall be deducted from the total number of units registered in the main meter of the High Tension Supply for billing purposes.

(iv) If a consumer availing High Tension Supply under this tariff does not for any reasons, utilise the power load for more than thirty days, then the energy utilised in the service for lighting and non-industrial purposes shall be billed under High Tension Tariff-VII.
