A flow chart to watch the progress of disciplinary proceedings cases was also prescribed in the Board's Proceedings second cited, and all the officers were requested to ensure that the time schedule prescribed should be adhered to strictly. In spite of this, there is an inordinate delay in dealing with disciplinary proceedings cases. While going through certain files, the Chairman has found that the files which were submitted for orders to continue the suspension for which there is no justification. The employees are being continued under suspension for a long period which is highly unjustified and incorrect, and hence it is hereby directed that all disciplinary proceedings authorities shall under no circumstances continue the suspension unless it is one of the rarest of the rare cases only where there is no other alternative. In all other cases the disciplinary proceedings authorities should take necessary action to finalise their findings and issue necessary orders before the expiry of the initial period of suspension.

2. The above orders shall be followed along with existing instructions scrupulously. Deviation if any will be viewed very seriously.

(By Order of the Chairman)

A.K. Thiyagarajan,  
Secretary.

The monthly transmission charges has to be shared by the beneficiaries in the Southern Region in the ratio of actual drawal of power every month until further review by the Board.

(b) In addition to the transmission charges, NTPC has also claimed idle charges for this line. Based on a meeting on 26—6—91 the State Electricity Boards (SEB) in the Southern region agreed to pay the idle charges from 1—12—90 for circuit I and 1—1—91 for circuit II respectively. The Board after careful consideration approves that the idle charges be paid to NTPC as and when claimed including the pending bills for January and February 1991.

Sub :— Forwarding of import proposals for the release of foreign exchange—Reg.

This office is receiving of various import proposals for the release of foreign exchange from various State Elec. Boards Power Utilities from time to time. It is noticed that the scrutiny of these

import proposals sometimes take long time due to the non-furnishing of these import proposals in a proper way. It is, therefore, requested that the following points may kindly be kept in view while forwarding these import proposals in future.

1. The import proposals should be clear in themselves and the details of the prospective supplier/firm to whom the purchase order is proposed to be awarded should be clearly given.

2. While furnishing the details regarding the evaluation of tenders it may also please be indicated that the order is proposed to be given at the lowest price. If it is not so, the reasons for the same may please be furnished.

3. It may also be clearly indicated that the prospective supplier/firm to whom the purchase order is to be placed has agreed to supply the equipment in question according to the specifications. If it is not so, the justification for the various deviations should also be furnished.

4. Three copies of each letter should also be positively sent to this office.

5. It has also been seen that the Indian Agents of the various firms are asking for IAC @ rates higher than that prescribed by the Govt. of India. It is expected that in such a situation all the SEBs/Power Utilities will make all possible efforts to reduce IAC within the prescribed limits.

6. It is also requested that as far as possible, immediately after forwarding the import proposals, the concerned Engineer/Officer may also kindly be deputed to this office for discussion and giving necessary clarifications so as to enable us to dispose of the proposal promptly.

7. The check list giving details of various documents required to be furnished along with the import proposals has already been sent to you.

I hope that in future your organisation will keep the aforesaid points in view before sending the various import proposals for FE release to this office so that this office is able to dispose of your proposal promptly.
