#### ABSTRACT

ESTABLISHMENT—Disciplinary action against employees who subsequently die before issue of final orders—Instructions issued.

B. P. Ms. No. 1073

(Secretariat Branch)

Dated 27th May 1972,

Read :

- (i) G.O. Ms. No. 2099 Public (Services-B) dated 4—12—1969.
- (ii) From the C.E.(E) Lr. No. 2532/A1/69—1, dated 4—3—1970.

#### Proceedings :

The Government of Tamil Nadu, after careful consideration as to how the cases of Government servants who die while under suspension for grave charges and where final orders on the disciplinary proceedings initiated against them were not communicated before their death should be disposed of,

B.B.—2 (July 96)

have issued instructions in the G.O. cited to the effect that on the death of the Government servant against whom disciplinary proceedings are pending such proceedings shall abate, even though such proceedings may be in the initial stage or nearing completion. It has also been ordered in the above G.O., that the period of suspension in such cases should be treated as duty only. The Chief Engineer (Electricity) has requested that the orders of the Government mentioned above may be made applicable to the Board's service also.

2. The Tamil Nadu Electricity Board has resolved to follow the instructions of the Government mentioned in para 1 above. The Board accordingly issues the following instructions:—

On the death of the Board's employee against whom disciplinary proceedings are pending, such proceedings shall abate, even though such proceedings may be in the initial stage or nearing completion. Any amount of allegation cannot take the place of proof of the same. So when the delinquent employee dies during the pendency of the proceedings, the allegations against the deceased employee have to be taken as not proved and it will not be legal to penalise the employee when the allegations have not been proved. An element of penalty is involved in treating the period of suspension as leave, because the pay of the employee for the period of suspension will be higher, if the period is treated as duty. Such a penalty cannot be imposed without giving an opportunity to the persons affected to show cause against the same. In the case of deceased Board's employee such notice, cannot be served on the deceased Board's employee and the notice served on the heirs cannot satisfy the requirements of natural justice, as the only person who would be in a position to show cause is the deceased employee. Therefore, no orders regulating the period of suspension otherwise than as duty can be passed.

3. Regulation 57 of the Tamil Nadu Electricity Board's Service Regulations will not be applicable to such cases for the reason that the disciplinary proceedings have neither been completed nor have they been voluntarily dropped.

(By Order of the Board)

A. M. Sundar Raj,  
Secretary.
