Memorandum (Per.) No. 59508/A3/A32/2003-1, (Secretariat Branch), dated 4.9.2003.

Sub: Remote Hydro/Cavero Allowance-cum-Performance Incentive for employees working in Remote Hydro Stations - Release of the remaining 25% of Performance linked Incentive for the financial year 2002-2003 - Eligibility criteria based on performance of respective Hydro stations - Working instructions - Issued.

Ref. 1. (Per.) B.P. (FB) No.23, (SB), dated 20.3.2002.
2. Board's Memo.No.25207/A3/A32/2002-3, dated 5.9.2002.
3. From the Chief Engineer/Hydro U.O.Note dated 26.6.2003.

In the Board's Proceedings first cited orders were issued sanctioning Remote Hydro/Cavern Allowance cum Performance Incentive to the employees working in Remote Hydro Stations/Kadamparai Power House as mentioned below:-

"75% of the rate of both Remote Hydro Allowance/Cavern Allowance sanctioned shall be paid every month and the remaining 25% shall be linked to the performance of the respective Hydro Stations to be reviewed by a Committee consisting of Accounts Member and Member (Generation) at the end of each financial year".

With reference to the orders mentioned above, the Committee constituted in para(4) of the B.P. cited furnished the following guidelines/general criteria to be adhered to by all Superintending Engineers/ Generation Circles in working out the performance of each station for releasing the balance 25% of the performance linked incentive:-

i) THE PLANT AVAILABILITY FACTOR:-

This factor is based on availability of the machine i.e., running or standby condition. As outage hours increases, this factor reduces. This factor will reflect the performance of the station.

ii) Annual overhaul is a statutory requirement, this period may be excluded for calculating the Plant Availability Factor for incentive purpose. Since R&M is undertaken for life extension and performance improvement, the machine under shutdown for R&M need not be considered for arriving Plant Availability Factor of the respective station. After R&M, the Machine shall be taken as new one.

iii) Balance 25% incentive may be considered for the stations that maintain minimum of 80% availability factor. Proportionate incentive (Reduction) shall be given for the stations that have less than 80% Plant Availability Factor. Average availability factor of all units in a station shall be considered as station availability factor, based on which incentive is to be worked out.

iv) The 25% incentive shall be given in full for the employees, who have served more than 200 days in a financial year at a particular Hydro station commencing from Financial year 2002-2003. Proportionate working days shall be calculated for those who join or leave in the middle of the year due to promotion or transfer and they shall be paid proportionately for their duration of service.

v) For those officers and staff working in SE/Generation Circle Office, stores etc., common to Generation Circle the Average Availability Factor of all the Stations shall be calculated proportionately for considering the payment of this incentive. A Sample working sheet is in Annexure.

2) The Superintending Engineers/Hydro Generation Circles/Kundah, Erode, Tirunelveli and Superintending Engineer/Generation Circle, Kadamparai are hereby instructed to workout and effect payment

5. The period of the tour of the above Officer will be treated as duty and he is eligible to draw the usual Pay and other Allowances which he would have drawn in India but for his tour in abroad.

6. Receipt of these proceedings shall be acknowledged.

(By Order of the Chairman)

S. Sundaresan,
Secretary (Incharge).

I invite your kind attention to the references cited.

In the references cited above, clear instructions have been issued to send necessary reply to the petitioner within 30 days, with reference to the action taken on the petitioners request. In the reference 3rd cited it has been requested to send reply to Chief Minister's Special Cell irrespective of the category of the petitions, and a status report in respect of the petition where reply could not be sent (i.e. Complaints, Policy decisions etc.). Of late, it is found that the replied do not throw light as to whether a reply has been actually sent to the petitioner or not. Moreover, many of the petitioners are approaching the CM's Cell and informing that their grievances have not been attended to and that they have not received any reply. But as per the data available in CM's Special Cell it has been recorded in the system that action has been taken on the petition and reply sent to the petitioner.

To avoid the above state of affairs, it has now been decided to enter the reply in the system in CM's Special Cell only based on the copy of the reply addressed to the petitioner. Hence I request you to kindly make necessary arrangements to send copy of the reply sent to the petitioner for making entry in the system, instead of bringing replies in bulk in the last minute.

(For example:-

For Service matter - Copy of Office order/proceedings etc. issued to the Petitioner.

For other pensions (OAP/WP/PH etc.) - Copy of order/reply sent to Petitioner.

Police - Wherever a reply has not been given to the petitioner, and action taken report.

In respect of all other petitions - the copy of the reply given to the Petitioner.

I request you to follow the above instructions scrupulously.

The receipt of this letter may kindly be acknowledged.

6. Letter No.435-3/Adm./A2/F.Qualification/2003, dated 27.5.2003.

Proceedings:-

In Mettur Workshop Circle, the categories of RWE had been reduced from 39 to 6 and promotions had also been ordered to certain employees by relaxing the Educational Qualification. Promotion had also been ordered to certain employees holding the post which are not having line of promotions (Viz.) Watchman, Scavengers, Waterboy, etc. without obtaining prior approval from the Competent Authority.

2. The Superintending Engineer/Mettur Workshop Circle has requested to approve and ratify his action in this regard, since the Mettur Workshop Circle is not having vast jurisdiction and situated within four Walls giving promotion to the juniors overlooking the seniors for want of Educational qualification will affect morale of the senior workers and will not be in the interest of productivity and quality of work. Further, he has stated that Mettur Workshop Circle is the only largest Factory functioning in TNEB fabricating line materials and Tower parts, etc. in large scale. Hence, relaxation of Educational qualification has to be allowed to the RWE employees in Mettur Workshop Circle.

3. After careful examination of the proposal of SE/Mettur Workshop Circle, the Board has approved and ratified, as a special case, the action of the SE/Mettur Workshop Circle as follows:-

- i) In having reduced the RWE categories to 6, re-designating as Chargeman, Foreman I Grade, Mechanic I Grade, Mechanic II Gr., Mechanic III Gr. and Helper without any change in their pay scale structures based on the recommendation of the In-House Management Consultancy Services, ordered in (Per.) B.P. (Ch.) No.43, (Tech. Br), dt.1.3.99 without getting approval from the Wage Revision Committee.
- ii) In having promoted the persons holding the post of Watchman, Scavengers, Water Boy, Gardener, etc. eventhough they were not having any line of promotions.

- iii) In having promoted certain RWE workers relaxing the Educational Qualification and practical experience.

GOVERNMENT OF TAMIL NADU

Abstract

Income support scheme to help Marginal and Small Farmers and hut service connection consumers to pay the electricity consumption charges - Procedure for disbursement - Orders - Issued.

G.O.No.371

(Revenue (N.C.III) Department)

Dated 22.8.2003.

Read:

From the Secretary to Government - Energy Department D.O.Letter
No.3655/C3/2003-2, Dated 10.7.2003.

Order:

According to the tariff schedule issued by the Tamil Nadu Electricity Regulatory Commission, tariff for the power supplied to agriculture consumers is Rs.250 per horse power for non-metered consumers and in the case of metered consumers it is 20 paise per kilo watt hour. In Tamil Nadu 15.2 lakhs Farmers get power supply free of cost from the Tamil Nadu Electricity Board. Among them, 4.56 lakhs farmers are categorised as small farmers and 4.37 lakhs farmers are categorised as Marginal farmers. Farmers having dry land upto 5 acres of wetland upto 2.5 acres are classified as small farmers. Farmers having dry land upto 2.5 acres or wetland upto 1.25 acres are classified as marginal farmers. The remaining are classified as large farmers.

www.taneef.org

2. Subsequent to the announcement of tariff for the agricultural consumers, the Government of Tamil Nadu announced an income support scheme to help the small and marginal farmers to tide over the reduction in net income consequent on payment of power consumption charges. The need for such income support is to protect these farmers i.e. small and marginal from the immediate income shock. The Government of Tamil Nadu therefore announced disbursement of Rs.1000 per year to Marginal and Small Farmers having pumpsets driven by motors upto 3 HP capacity and who have been availing the Free supply of electricity so far. Similarly, the Government announced disbursement of Rs.1250 per year in the case of those Marginal and Small Farmers having pumpsets driven by Motor of 5 HP and above and who have been availing the free supply so far. The Government have also announced that in rural areas Rs.100/- per annum will be provided as cash assistance to the rural hut service connection consumers, who have been availing free supply so far.

3. Identification of the Department having field set up for implementation of the scheme and related issues were discussed at a meeting held on 24.6.2003 under the Chairmanship of Development Commissioner and Secretary, Finance. After detailed discussions, it was considered that the Revenue Department could be designated as the implementing Department for disbursing the income support to the Marginal and Small farmers since the Revenue Department has the required basic land holding details and manpower at the Taluk/Village level. Further any representation on the status of a farmer as a marginal/small/large farmer can also be attended to by the Revenue Department since land records are available with them.'

4. The Government have also examined various options for disbursing the assistance such as opening of savings bank account with the village post offices. Payment through primary agricultural cooperative societies, sending the cash assistance through money order using the services of the postal department etc. In order to ensure that the income support reaches the beneficiary farmers at their doorstep and without any intermediation, the Government has decided to disburse the assistance through money order via the Postal Department to the beneficiary farmers directly.

5. The Government, after careful consideration, direct that the Revenue Department be designated as the implementing department for the disbursement of income support to the small and marginal farmers and rural hut service connection consumers who were availing free supply of electricity earlier.

6. The modalities for disbursement of income support to the farmers will be as follows:-

- (i) The disbursement of income support be made through Money Order through the Department of Post and Telegraphs to the beneficiary farmers directly as is being done in the case of old age pension, so that the income support will reach the beneficiary farmer at his/her door step.
- (ii) The income support has to be disbursed twice a year at the rate of Rs.500/- (Rupees five hundred only) per half year to the beneficiary small and marginal farmers who are using pumpsets upto the capacity of 3 HP. The income support shall be disbursed twice a year at the rate of Rs.625/- (Rupees six hundred and twenty five only) per half year to the beneficiary small and marginal farmers having pumpsets of capacity of 5 HP and above.
- (iii) The Taluk Tahsildars of Revenue Departments shall arrange for sending the assistance through Money Order to the beneficiary farmers once in six months based on the data furnished by the TNEB.
- (iv) Since the current consumption charges to the TNEB have to be paid by the marginal and small farmers during the second fortnight of September 2003 and thereafter every six months, the money shall be disbursed to the small and marginal farmers in time to facilitate them to pay the current consumption charges to the TNEB within the due dates. The Tamil Nadu Electricity Board will provide the updated database once in six months to the Revenue Department for making necessary changes in the schedule of beneficiary farmers.
- (v) An income support of Rs.100/- shall be sent to the Rural Hut Service Connection consumers by Money Order once in a year by the Revenue

Department through the Tahsildars based on the data furnished by the TNEB. This will enable the rural hut service connection consumers to make payment in time to the Tamil Nadu Electricity Board. Since the first payment is due in the month of September 2003, the income support has to be sent to the Rural Hut Service connection consumers in time.

7. The expenditure for income support for small and marginal farmers and rural hut service connection consumers shall be debited to the following head of account:-

1. Small and Marginal Farmers

"2401-00-Crop Husbandry 800 Other expenditure - JW. Scheme for accelerated irrigation for Small and Marginal Farmers 11 subsidies 02 General subsidy (2401-00-800-JW-1127).

2. Rural Hut Service Consumers

8. The Special Commissioner and Commissioner of Revenue Administration is authorised to draw the amount for disbursement to the marginal and small farmers and rural hut service connection consumers.

9. The Special Commissioner and Commissioner of Revenue Administration, Disaster Management and Mitigation is requested to issue further instructions wherever necessary and to monitor proper implementation of the scheme.

10. This order issues with concurrence of the Finance Department vide its U.O.No.294/DS(CT)/2003 dated 22.8.2003.

Sub: TNEB - Procedure to be adopted for dismantling of the existing damaged buildings/structures/quarters/Store shed - Detailed guidelines - Issued.

Ref: Chairman's approval on Chief Engineer/Civil Design's Note dated 28.7.2003.

1. OBSERVATION:

It is observed that field Chief Engineers/Superintending Engineers after sanctioning the dismantling estimates for old type of buildings/structures/failed or unused buildings, dispose the retrievable materials through auctioning after spending lot of expenditure and time on dismantling, stacking at stores (by consuming considerable space) assessing the values for auctioning etc. This involves not only wasteful expenditure but also considerable time is taken for each activity. Also there are chances for loss of retrievable materials due to theft or loss of value due to deterioration/corrosion.

2. DIRECTION:

To overcome the difficulties, the Chairman has approved the following directives/guidelines.

- a) Instead of dismantling and then auctioning the retrievable materials the building is to be auctioned in "as is where is condition".

- b) The base value may be fixed by the competent authority at the time of auctioning, considering the condition of the building area and the value of the retrievable materials.
- c) The above guidelines comes into immediate effect.
