Note approved by CMD/TANGEDCO on 19.11.2015.

PROCEEDINGS:

Under the Circumstances explained by the Chief Engineer/Information Technology, Chennai, the CMD/TANGEDCO approved the proposal of the Chief Engineer/Information Technology, Chennai, for development of software for Recruitment in Administration wing, in the office of Chief Engineer/Information Technology and ordered as follows:-

1. Redeployment of two posts of Assistant Engineer/Electrical (equal monitory post elsewhere) to the Superintending Engineer/Computer Centre for six months at the first instance by the Chief Engineer/ Personnel, whenever recruitment or exams have to be carried out.

24. Interview call letter

25. Verifier Check list

Stage V

26. Selection Process

27. Data to Roaster Preparation

28. Roaster Preparation (Manual)

29. Data from Roaster to system

30. Result declaration

In order to develop the above process step by step, the requirements from Administration wing in time is very much essential.

On completion of steps 1 to 12, which is expected in 30 days completion period, the on-line application portal can be opened for applicants and other steps from 13 to 30 will be developed subsequently on getting the business process from administrative wing and will be made ready.

The following methods are suggested for payment.

1. Demand Draft : In this method, the physical copy of the on-line generated Application form along with DD has to be validated by the Administrative wing before proceeding to Generation of Hall ticket.
2. Postal Order : In this method, the physical copy of the on-line generated application form along with postal order has to be validated by the Administrative wing before proceeding to Generation of Hall ticket.
3. Bank Challan
(without Hand shake) : In this method, the payment can be collected without any web service between TANGEDCO and bank and this also requires the physical copy of the on-line generated application form along with copy of the bank challan - has to be validated by the Administrative wing before proceeding to Generation of Hall ticket.
4. Bank Challan : Web service between bank and TANGEDCO will be established while collection of fees at bank which ensures fool proof method for the reconciliation.

It is suggested that the method 4 is the better method as it is the fool proof method of payment which avoid any controversy arises from the applicant regarding the payment reconciliation. And also this method eliminates the submission of on-line generated application form along with copy of the bank challan and further validation of application form by the administrative wing. To proceed in the method 4, minimum of 15 days is required by the bank on receipt of TANGEDCO requirement. However, any method as suggested by CE/Personnel will be adopted in the software.

The requirements for all the process should be provided by administration wing time to time with development process to ensure the completion of software without any delay. The testing of the above steps should be performed by the administrative wing to ensure all the business process meeting the TANGEDCO proceedings, rules, regulations and G.Os for the recruitment of various categories are in-corporated in the software.
